Cattails T P C

Blue Monster

Blue Monster

The Blue Monster at Cattails T P C combines the three elements that Disc Golfers crave; Big elevation changes, lots of water hazards, and beautifully manicured fairways, all set against the backdrop of towering Bays Mountain in Kingsport, Tennessee.

Blue Monster

OB's and Ground Rules MPO,

MP40, MP50, MA1 will play from the Blue tees

All other Am men divisions will play from the White tees

Ladies will play from the Red tees

All golf greens are O B .

Bunkers are O B for Blues. Bunkers are not O B for White and Red tees.

If you land in a bunker, play the shot from where it lies, all divisions.

If you land on a green, play next shot from the spot where it crossed into the green with a one stroke penalty.

The primary cut (actual putting surface, not the fringe) is the O B line on all greens.

Blue Monster

OB's and Ground Rules cont.

All ponds and marshes are O B .

Creeks are O B but shots that land across creeks are in bounds.

The ponds and marshes are protected areas, please do not enter to retrieve discs. The creek is not protected and may be entered at your own risk.

Painted lines mark the boundaries of all ponds and marshes. Benefit of the doubt goes to the player in any difficult in or out determinations.

Cart paths are not O B for White and Red tees. Certain cart paths are O B for Blues. Refer to each hole for Blue tee cart path OB's.

Hole 1

The Blue Monster begins by quickly letting you know how it got its name. Careful consideration must be given on the tee or players will risk winding up OB. A Par 4, choose wisely how much of the marsh you want to challenge in order to allow for a shorter approach. The approach is no gimme either as the basket is perched on top of a big mound that slopes off in all directions.

Blue tee –	738 ft	Par 4
White tee –	465 ft	Par 4
Red tee -	372 ft	Par 4

Hole 2

From the tee, Hole 2 looks relatively easy but OB lurks just inside the tree-line on the right. A creek meanders down there and bows around the basket creating a small peninsula. Lefty hyzers and righty sidearm's will need to play a little further out to the left to avoid a skip into the creek, which is only 20-30 ft from the pin. Righty backhands will be tough to judge because of the trees blocking any hyzer shots. Across the creek is not OB.

All divisions tee – 234 ft Par 3

Hole 3

Drives off of Hole 3 will have plenty of room to work with but the second or third shot will demand your complete attention. The bunker complex that guards the basket is not OB for Ams and Ladies but is OB for Pros. The tall scrub area on the right is not OB, but it is very easy to lose discs in there.

Be very careful to stay away from the right side rough. Some of it is nearly 5 ft high and when looking for a disc, you can't see your feet. Believe me, its bad.

Blue tee -	660 ft	Par 4
White tee -	526 ft	Par 4
Red tee -	402 ft	Par 4

Hole 4

Hole 4 calls for a big crank uphill to a basket tucked into a large, bowl shaped depression directly below the green/bunker complex. The hole measures 270 ft but plays more like 350 ft. Don't let this deuce opportunity pass you by. The green is OB and bunkers are OB for pros, but it is highly unlikely anyone will end up there.

All divisions tee - 270 ft Par 3

Hole 5

Hole 5 is a fun, downhill deuce opportunity. The basket is barely visible from the tee and a nice, slow left to right shot will get you a birdie chance. The green is OB, the bunkers are OB for Pros only. Take care to stay away from the tree-line on the right as the hill drops off very steeply. Get that deuce and move on to Hole 6 for another birdie bid!

All divisions tee - 315 ft Par 3

Hole 6

Hole 6 is fairly short and kinda tame looking but don't let it fool you. The basket sits on a nice flat golf tee area but falls off on all sides, especially to the right. Straight shots with little skip will work just fine. Be sure to keep your eye out for visual conflicts with Hole 5. The green is OB, the bunkers are OB for Pros only.

All divisions - 264 ft Par 3

Hole 7

Hole 7, although it has no water, may be the signature hole on the Blue Monster. Off the very elevated tee, don't let the spectacular view distract you from your main objective; keeping your drive out of the scrub area on the right and left. Discs play an extremely unfair game of hide-and-seek in there. Once safely in the fairway, turn your attention to the basket way up on top of the hill. Par 5 may be a little forgiving, but throw one bad shot and a 5 will feel pretty good. Please park carts in the orange circle and take your discs up to the basket and the next tee.

Blue tee –	720 ft	Par 5
White tee -	693 ft	Par 5
Red tee -	510 ft	Par 5

Hole 8

Hole 8 is an example of a Premier Design tradition, a very wooded hole on a ball golf course. After putting out on Hole 7, follow the trail to Hole 8's tee. A very steep, downhill drive awaits. Putters or mids will suffice, whatever you can use to stay in the tight fairway. Solid shots will get a chance at deuce. Knock in that 2 and go get your waiting cart and head to Hole 9's tee.

All divisions tee -160 ft Par 3

Hole 9

Every course has a fairly easy birdie and Hole 9 is it. Not many real obstacles here, but enough to make it interesting. Make sure your drive stays out of the scrub areas in front and beyond the basket. Keep an eye out for players on carts coming up the hill headed to Hole 3's tee. The green on the right is OB, but anyone who ends up there will be kicking themselves all the way to Hole 10's tee! The bunkers are OB for Pros only.

Blue tee -	309 ft	Par 3
White tee -	266 ft	Par 3
Red tee -	266 ft	Par 3

Hole 10

Want water? Hole 10 ushers in the Blue in Blue Monster. The drive is just the beginning of the fun as you will be on your toes until the putt goes in. Keep your drive in the center of the fairway and grin all the way to the basket. The obvious OB on the left is countered by the not so obvious OB creek in the right side tree-line. Approaches need to be cautious as well, as the basket is pretty close to the water. The water/marsh is a protected area so if your shot unfortunately lands in there, please refrain from going in after it unless it is reachable with a stick or golden retriever.

Blue tee -	786 ft	Par 4
White tee -	653 ft	Par 4
Red tee -	345 ft	Par 4

Hole 11

More water. Hole 11 will ask for at least a 200 ft shot to clear the water if you want to attack the pin. If you don't feel confident, there is plenty of bail out room on the left. A little risk-reward is a good thing, right? Get that 2 and move on to the next water hole just a few yards away. The green is OB, the bunkers are OB For Pros only.

Blue tee – 330 ft Par 3
White tee – 330 ft Par 3
Red tee – 156 ft Par 3

Hole 12

And still more water. Hole 12 demands another good pull to clear the marsh/water area. The basket is close to the marsh and shots that go long will have a testy putt back toward the water. See if you can go 3-2-2 on 10, 11, and 12 to put some space between you and the field! The green is OB, the bunkers are OB for Pros only.

Blue tee - 336 ft Par 3
White tee - 336 ft Par 3
Red tee - 210 ft Par 3

Hole 13

Lefties and righty sidearms will like Hole 13. Although it is technically surrounded by water, there is plenty of room to stay safe. It will take a pretty bad shot to get wet. Don't be the one to find OB on Hole 13. Righty turnovers that don't hold the turn can end up in very thick rough on the left of the cart path, avoid at all costs! If you need to use the restroom, one is provided for your convenience 😊

All divisions tee - 296 ft Par 3

Hole 14

Hole 14 is relatively bland but there is OB to find if you let your drive or second shot go too far left. The cart path on the left and beyond is OB for ALL DIVISIONS. The rough/swamp left of the cart path is a hot mess, so the OB was made to hopefully keep discs in the hands of the player, not Mother Nature. The basket is on top of a mound, similar to Hole 1, and slopes off in all directions. Upshots that roll could find the cart path OB behind the basket.

All Divisions tee - 479 ft Par 4

Hole 15

If Hole 7 wasn't the signature hole on the Blue Monster, then Hole 15 is. First of all, players must decide how much of the water they want to bite off on the drive. A long, solid drive could make the green reachable in two shots, but is it worth the risk? The second or third shots have water on the right as well. The green is OB, the bunkers are OB for Pros only. Play this hole smart, a disc is a terrible thing to waste.

Blue tee -	796 ft	Par 5
White tee -	746 ft	Par 5
Red tee -	531 ft	Par 5

Hole 16

Hole 16 looks simple but water on both sides tends to make the simple a little more difficult. If you keep your drive flat, you will find par very easy to attain. However, if your drive is a little loose, the water can most definitely come into play. Put another 2 on the scorecard and head to Hole 17 feeling good! Cart path and beyond on right is OB for Pros only.

Blue tee -	386 ft	Par 3
White tee -	340 ft	Par 3
Red tee -	300 ft	Par 3

Hole 17

The creek on Hole 17 provides the main obstacle to most drives but the rough on the left behind the basket could pose a much more difficult problem. Stay away from the rough if you want to keep your disc. It is thick and unforgiving. The green is OB, the bunker is OB for Pros only.

Blue tee -	305 ft	Par 3
White tee -	305 ft	Par 3
Red tee -	216 ft	Par 3

Hole 18

If Hole 10 ushered in the Blue, then Hole 18 introduces you to the Monster. This hole will keep you focused. Start out by making sure you clear the cattails off the tee. Then, keep your second shot in the middle and avoid the marsh that runs the entire length of the hole on the right. Finally, negotiating the approach may cause bad dreams as Horse Creek looms left of the basket and a cart path is there, dying to give you a skip into a premature bath. It's not all super-tough though, smart play could reward you with a satisfying par. The green is OB, the bunker is OB for Pros only.

Blue tee -	969 ft	Par 5
White tee -	688 ft	Par 5
Red tee -	400 ft	Par 5
